# MESSAGE FROM THE DIRECTOR

**Olivier Bahn**  
GERAD Director

As Director of GERAD,  
I am very pleased to  
present our 2021-2022  
Annual Report.

One of the key events this year was the renewal of our strategic cluster grant from the Fonds de recherche du Québec – Nature et technologies (FRQNT), for the maximum eligible amount and for a six-year period (2022–2028). This recognition is evidence of the scientific excellence of GERAD’s researchers, which is reflected in the many indicators presented in this report, including the number of graduate and supervised students (p. 12), number of students in the field (p. 14), number of researchers in the field (p. 15), rankings among the world’s most influential researchers (according to Research.com, (p. 13), and Mendeley-Elsevier, (p. 17), awards and distinctions obtained by our members (pp. 15–16) and our students (p. 18), grants received (p. 19), and the publications and scientific activities organized (p. 20).

In addition, during the year 2021–2022, GERAD has continued to grow, having recruited ten regular members (David Ardia, HEC Montréal; Okan Arslan, HEC Montréal; Maxime Cohen, McGill University; Franklin Djeumou Fomeni, Université du Québec à Montréal (UQAM); Mary Kang, McGill University; Antoine Legrain, Polytechnique Montréal; Antoine Lesage-Landry, Polytechnique Montréal; Carolina Osorio, HEC Montréal; Alton Russell, McGill University; Xiaozhe Wang, McGill University), as well as a new associate member (Amir Ardestani-Jaafari, University of British Columbia).

To conclude, I would like to offer some thanks on behalf of the entire GERAD community. First, I want to extend my warmest thanks to our funders, whose financial support is essential to GERAD’s smooth operation: the FRQNT, the Institute for Data Valorization (IVADO), our sponsoring universities (HEC Montréal, Polytechnique Montréal, McGill University, and UQAM), as well as several of the research chairs active at GERAD. I would also like to express my gratitude to our industrial partners, who trust GERAD’s expertise. My thanks also go out to all GERAD members who are involved in our committees and organize scientific activities, thereby helping to make GERAD a stimulating environment for research. Finally, I would like to thank our administrative and technical staff for the indispensable support they provide the entire GERAD community.

Enjoy your reading!

*Olivier Bahn*

# GERAD

## IN BREF

Created in 1979, GERAD is an inter-university research centre that brings together specialists in data and decision sciences, computer science, applied mathematics and mathematical engineering. These scientists come mainly from HEC Montréal, Polytechnique Montréal, McGill University and the Université du Québec à Montréal.

**73** regular members from Quebec universities

**113** research professionals and postdoctoral researchers

**over \$32M**  
in grants and projects

**111**  
members

**718**  
students

**ABOUT 90**  
industrial partners

**93**  
research activities

**392**  
scientific publications

**14**  
Quebec universities

# GERAD'S **MISSION:**

To develop the mathematics of decision-making in all its forms in complex systems – be they technological, commercial or economic – and upstream of decision-making, to develop modelling based on statistics, simulation and data valuation

To train highly qualified personnel in the above fields, promoting equity, diversity and inclusion

To bring university researchers together with industry, with a view to carrying out large-scale research and development projects and to contribute to the international influence of Quebec research

To have a significant impact on society through scientific innovation, the transfer of know-how in important sectors of the economy and the development of decision-making tools

# FUNDAMENTAL RESEARCH

GERAD's scientific program is based on **four research axes:**

**1** Data valuation for decision-making

**2** Decision support made in complex systems

**3** Decision support made under uncertainty

**4** Real-time decision support

# APPLICATIONS

GERAD doesn't only tackle theoretical and methodological developments along these four research axes, in fact, one of its defining characteristics is that it deploys these methods in the following **broad fields of application.**

**1** Economy and finance

**2** Energy, environment and natural resources

**3** Smart infrastructures

**4** Engineering

**5** Smart logistics

**6** Marketing

**7** Health

# BOARD OF DIRECTORS

**Caroline Aubé**

Director of the Research and Knowledge Transfer Office

HEC Montréal

**Olivier Bahn**

GERAD Director and Chairman of the Board

HEC Montréal

**Roussos Dimitrakopoulos**

Professor; Member Representative

McGill University

**Olivier Grenier**

Director of the Research Office/Centre for Technological Development

Polytechnique Montréal

**Patrick Jeandroz**

Head of Expertise – Data Science and High-Performance Computing; Industry Representative

IREQ

**Kristina Öhrvall**

Director, Strategic Initiatives

McGill University

**Jean-Pierre Richer**

Director of the Research and Creation Office

UQAM

## EVOLUTION OF OUR MEMBERSHIP

	2018-19	2019-20	2020-21	2021-22
<b>Regular members</b>	61	62	69	<b>73</b>
<b>Associated members</b>	30	32	32	<b>34</b>
<b>Honorary members</b>	4	4	3	<b>3</b>
<b>Visiting members</b>	5	4	2	<b>1</b>

## REGULAR MEMBERS BY INSTITUTION

## DISTRIBUTION OF OUR ASSOCIATED MEMBERS

# CHAIR HOLDERS AT GERAD

**Yossiri Adulyasak**  
Canada Research Chair in  
Supply Chain Analytics

**Miguel F. Anjos**  
Inria International Chair on  
Power Peak Minimization  
for the Smart Grid

**Leandro C. Coelho**  
Canada Research Chair in  
Integrated Logistics

**Maxime Cohen**  
Scale AI Chair in Data  
Science for Retail

**Jean-François  
Cordeau**  
Chair in Logistics and  
Transportation

**Erick Delage**  
Canada Research Chair  
in Decision Making Under  
Uncertainty

**Roussos  
Dimitrakopoulos**  
Canada Research Chair in  
Sustainable Mineral Resource  
Development and Optimiza-  
tion Under Uncertainty

**Christian Genest**  
Canada Research Chair  
in Stochastic Dependence  
Modeling

**Raf Jans**  
Chair in Supply Chain  
Operations Planning

**Andrea Lodi**  
Canada Excellence  
Research Chair in Data  
Science for Real-Time  
Decision-Making

**Carolina Osorio**  
Scale AI Research Chair  
in Artificial Intelligence for  
Urban Mobility and Logistics

**Georges Zaccour**  
Chair in Game Theory  
and Management

# MEMBERS OF THE ROYAL SOCIETY OF CANADA (RSC)

**Michèle Breton**

**Peter E. Caines**

**Jean-François  
Cordeau**

**Erick Delage**

**Jacques Desrosiers**

**Christian Genest**

**Pierre Hansen**

**Gilbert Laporte**

**Saibal Ray**

**Georges Zaccour**

# COMPOSITION OF THE GERAD

# STUDENTS

## STUDENTS ENROLLED AND GRADUATES BY UNIVERSITY

## BREAKDOWN BY LEVEL

	2018-19	2019-20	2020-21	2021-22
<b>MSc graduates</b>	124	132	123	<b>133</b>
<b>MSc enrolled</b>	221	200	192	<b>234</b>
<b>PhD graduates</b>	46	29	44	<b>50</b>
<b>PhD enrolled</b>	219	228	277	<b>301</b>

# HIGHLIGHTS OF THE YEAR

[On January 2, 2022, we learned with regret of the death of Jean-Louis Goffin, one of the founding members of GERAD and Professor Emeritus in the Department of Management Sciences at McGill University.](#)

Two GERAD members were awarded new research chairs.

Carolina Osorio leads the Scale AI Research Chair in Artificial Intelligence for Urban Mobility and Logistics at HEC Montréal.

The Scale AI Chair in Data Science for Retail is held by Professor Maxime Cohen at McGill University.

[IVADO's research program "Integrated Machine Learning and Optimization for Decision Making under Uncertainty: Towards Robust and Sustainable Supply Chains," led by members Erick Delage and Yossiri Adulyasak of HEC Montréal, received a \\$1.2 million grant.](#)

A GERAD study project is funded by OBVIA. This project focuses on the study the governance and ethics of algorithms in an on-demand mobility and innovation ecosystem environment. The GERAD team consists of Andrea Lodi, Antoine Legrain, François Soumis and Hugues Delmaire, along with researchers Patrick Turmel, Vincent Gautrais and Sébastien Gambis.

Maxime Cohen was appointed as the first ELNA Medical Chief Artificial Intelligence Officer.

Professor Georges Zaccour's Chair in game theory and management has been renewed until May 2027.

## SPECIAL 40TH ANNIVERSARY ISSUES

To celebrate GERAD's 40th anniversary, **Daniel Aloise, Gilles Caporossi** and **Sébastien Le Digabel** published a [special issue](#) of the *Journal of Global Optimization* (volume 81, number 1, September 2021).

GERAD's 40th anniversary also inspired **Michèle Breton** and **Olivier Bahn** to publish a special issue of the *Environmental Modeling & Assessment* journal ("[Energy, Environment and Sustainable Development](#)", volume 26, number 6, December 2021)

Research.com has published the 2022 edition of its ranking of the top 1,000 scientists in several fields. Here are the 15 GERAD members listed.

In the field of mathematics (rank in Canada, rank in the world):

- **Gilbert Laporte** (#1, #3)
- **Pierre Hansen** (#5, #68)
- **Jean-François Cordeau** (#9, #214)
- **Pierre L'Ecuyer** (#11, #271)
- **Christian Genest** (#14, #453)
- **François Soumis** (#31, #788)
- **Jacques Desrosiers** (#32, #790)
- **Andrea Lodi** (#33, #832)
- **Guy Desautniers** (#47, #1206)
- **Charles Audet** (#50, #1244)
- **Alain Hertz** (#52, #1322)
- **Brigitte Jaumard** (#83, #1933)

In the field of economics and finance:

- **Georges Zaccour** (#36, #1539)

In the field of electronics and electrical engineering:

- **Peter Caines** (#128, #2454)

In the field of engineering and technology:

- **Roussos Dimitrakopoulos** (#197, #4770)

# AWARDS AND HONOURS

---

## Yossiri Adulyasak

Chenelière Éducation, Gaëtan-Morin Award, HEC Montréal, 2021

Luminescence Prize, HEC Montréal, 2021

---

## Yossiri Adulyasak, Raf Jans and Narges Seresthri

Best Paper Award published in the journal *Omega*, 2021 (for the paper entitled “The value of aggregate service levels in stochastic lot sizing problems”)

---

## David Ardia

Best asset pricing paper award during the 38th International Conference of the French Finance Association (for the paper entitled “Evaluating Hedge Fund Performance when Models are Misspecified”)

Best Paper Award for 2018-2019, *International Journal of Forecasting* (for the paper entitled “Questioning the news about economic growth: Sparse forecasting using thousands of news-based sentiment values”)

---

## Okan Arslan

Young Researcher Award , HEC Montréal, 2021

Third place in the Amazon Last Mile Routing Research Challenge, 2021

---

## Charles Audet

Palais des congrès Ambassador, 2022

---

## Mathieu Boudreault

Award of Excellence, Canadian Institute of Actuaries Legacy Awards, 2021

---

## François Bouffard

Outstanding Academic Service Award, McGill University, Faculty of Engineering , 2021

---

## Leandro C. Coelho

1st Prize at the Practice Prize Competition, Canadian Operational Research Society, 2021 (for the project entitled “Fleet sizing and routing problem with synchronization for AGVs with dynamic demands”)

Best Paper Award published in the journal *Omega*, 2021 (for the paper entitled “The Multi-Period Workforce Scheduling and Routing Problem”)

---

## Maxime Cohen

RETHINK Retail’s Top Retail Influencers, 2022

---

## Jean-François Cordeau and Raf Jans

Augusto Queirós Novais Award, Associação Portuguesa de Investigação Operacional (APDIO), 2021 (for the paper entitled “Solving a large multi-product production-routing problem with delivery time windows”)

---

## Roussos Dimitrakopoulos

Gold Medal Award, Southern African Institute of Mining and Metallurgy (SAIMM), 2021 (for the paper entitled “Adaptive simultaneous stochastic optimization of a gold mining complex”)

---

## Yichuan Daniel Ding

Winner of the Best Paper Competition in the category of statistical methods / econometric modeling, 4th annual Canadian Healthcare Optimization Workshop (CHOW), 2021

---

## Christian Genest

David Sprott Distinguished Lectureship, University of Waterloo, 2021

---

## Brigitte Jaumard

2nd rank at Graph Neural Networking (GNN) Challenge, Barcelona Neural Networking Center, Polytechnic University of Catalonia, 2021

---

# AWARDS AND HONOURS

---

## Mary Kang

Christophe Pierre Research Excellence Award, McGill University, 2022

---

## Michael Kokkolaras

Ranked among the reviewers' Favorite Papers (ranked 35 out of 359), International Conference on Engineering Design, 2021 (for the paper entitled "Exploring the Potential of Digital Twin-Driven Design of Aero-Engine Structures")

---

## Gilbert Laporte

*Transportation Science* Meritorious Service Award, 2021

Honorary doctorate, Norwegian University of Science and Technology, 2021

Best Editor Award, *Communications in Transportation Research*, 2022

---

## Andrea Lodi

Farkas Prize, INFORMS, 2021

---

## Roland P. Malhamé

Fellowship nomination, IEEE Control Systems Society, 2022

Meritas Award for best graduate course teacher in electrical engineering, Polytechnique Montréal, 2022

---

## Vahid Partovi Nia

Best Industrial Paper Award, Institute for Systems and Technologies of Information, Control and Communication, 2022 (for the paper entitled "iRNN: Integer-only Recurrent Neural Network")

---

## Wei Qi

Chuck ReVelle Rising Star Award, INFORMS, 2021

---

## Fatiha Sadat

Research Incubator Award, Centre for Research on Brain, Language and Music, 2021 (for the project entitled "Towards an Emotional Chatbot adapted for Indigenous Language Learning and Revitalization")

---

## Brunilde Sansò

Co-president nomination, International Council of Academies of Engineering and Technological Sciences (CAETS), 2021

---

## Georges Zaccour

Pierre Laurin Research Award, HEC Montréal, 2021

Best Paper Award published in the journal *Omega*, 2021 (for the article entitled "Optimal dynamic management of a charity under imperfect altruism")

---

These 19 GERAD members are among the most influential scientists in the world in various fields of research, according to a study by Mendeley (Elsevier) published in 2021.

- Charles Audet
- François Bouffard
- Peter E. Caines
- Leandro C. Coelho
- Jean-François Cordeau
- Hanane Dagdougui
- Guy Desautniers
- Roussos Dimitrakopoulos
- Christian Genest
- Pierre Hansen
- Alain Haurie
- Alain Hertz
- Minyi Huang
- Brigitte Jaumard
- Gilbert Laporte
- Pierre L'Ecuyer
- Sébastien Le Digabel
- Andrea Lodi
- Georges Zaccour

# GERAD AWARDED \$91,500 IN SCHOLARSHIPS AND PRIZES

## STUDENTS WHO OBTAINED SCHOLARSHIPS

### FRQ

**Samuel Desparois** (HEC Montréal),  
master's research scholarship, FRQNT

**Sina Shahnejat Bushehri** (HEC Montréal),  
doctoral research scholarship, FRQNT

**Ahmadreza Tavasoli** (HEC Montréal),  
doctoral research scholarship, FRQSC

**Xiaoting Wang** (McGill University),  
doctoral research scholarship, FRQNT

### NSERC

**Samuel Desparois** (HEC Montréal),  
Master's scholarship

**Farhad Rahbarnia** (Polytechnique Montréal),  
Doctoral scholarship

### IVADO

**Saad Akhtar** (Polytechnique Montréal),  
postdoctoral research scholarship, 2022

### GERAD

**Claudia Bongiovanni** (HEC Montréal),  
postdoctoral fellowship

**Dorian Dumez** (HEC Montréal),  
postdoctoral fellowship

**G. Selin Savaşkan** (HEC Montréal),  
postdoctoral fellowship

## Others

**Youness Chahdi** (HEC Montréal),  
Fin-ML scholarship, Collaborative Research and  
Training Experience program (CREATE), NSERC

**Ndeye Rokhaya Dieng** (HEC Montréal),  
Fin-ML scholarship, Collaborative Research and  
Training Experience program (CREATE), NSERC

**Gaspard Lapierre-Fecteau** (HEC Montréal),  
Fin-ML scholarship, Collaborative Research and  
Training Experience program (CREATE), NSERC

**Rosnel Sessinou** (HEC Montréal),  
Fin-ML postdoctoral scholarship, Collaborative  
Research and Training Experience program  
(CREATE), NSERC

**Scott Seymour** (McGill University),  
Vadasz Scholar, McGill Engineering Doctoral Award,  
McGill University

**Idriss Wannassy** (HEC Montréal),  
Fin-ML scholarship, Collaborative Research and  
Training Experience program (CREATE), NSERC

**James P Williams** (McGill University),  
McGill Engineering Doctoral Award Leveraged  
Funding, McGill University

**Qihua Zhong** (HEC Montréal),  
J.A. DeSève (PhD) Merit Scholarship,  
Fondation J.A. DeSève

Seventeen HEC Montréal students have been awarded  
MITACS accelerate scholarships

## Student awards

**Wenqing Ai** (Tsinghua University)  
Honorable mention, 2022 Student Paper Competition  
of College of Sustainable Operations, Production  
& Operations Management Society (POMS),  
“Crowdsourcing Electric Mobility for Omni-Sharing  
Distributed Energy Resources”

**Carole Brunet Idriss-Kanago**  
(Polytechnique Montréal),  
Roger A. Blais Award for the best thesis,  
Polytechnique Montréal, 2021

**Emeric Courtade and Pierre Pereira**  
(Polytechnique Montréal),  
1st place, PlankThon Challenge, Veolia and Tara  
Ocean Foundation, 2021

**Farouk Hammami** (Université Laval),  
People’s choice award at the Three Minute Thesis  
Competition, Université Laval, 2022

**Kwassi Holali Degue** (Polytechnique Montréal),  
2021 best thesis award, GERAD

**Matheus Faria** (McGill University),  
Tied second place in the OR/MS scientific writing  
activity, GERAD, 2021

**Narges Sereshti** (HEC Montréal),  
Esdras-Minville Award, HEC Montréal, 2022

**Mohammed Shalaby** (McGill University),  
Nominated as a finalist for the Best Student Paper  
Award, IEEE Robotics and Automation Society,  
International Conference on Robotics and Automation  
(ICRA), 2021

**Julie Sliwak** (Polytechnique Montréal),  
Best doctoral thesis in engineering mathematics,  
Polytechnique Montréal, 2022

# FUNDING AND GRANTS

## GERAD RECEIVED THE FOLLOWING IN INFRASTRUCTURE GRANTS:

**\$502,085**

of the FRQNT Strategic Clusters program

**\$264,637**

from IVADO

**\$174,000**

from academic institutions

**\$10,000**

from research chairs

## \$32 MILLION IN RESEARCH GRANTS

\*Amount of the grants received by GERAD members. Annual amounts are the total grant divided by the duration of the grant (number of years). By weighting by the number of researchers on a project by those who are GERAD members, the amount that is directly tied to members is approximately \$19,4 million annually.

**\$12,063,680**  
NSERC

**\$3,895,984**  
Research chairs

**\$3,519,206**  
MITACS

**\$1,105,301**  
Contracts

**\$1,071,023**  
IVADO

**\$945,402**  
FRQ

**\$334,726**  
Academic institutions

**\$534,851**  
SSHRC

**\$176,916**  
Scholarships

**\$8,213,455**  
Others

- \$2,9 million in Discovery Grants this year
- Over \$4,3 million in NSERC research and development projects
- \$3,5 million in MITACS projects
- 17 NSERC Alliance Grants for a total of \$4,2 million
- \$875K for two projects under the Innovation for Defence Excellence and Security (IDEeS) program, Department of National Defence
- \$400K for COSMO Stochastic Mine Planning Laboratory

# PUBLICATIONS

**296**

published articles

**84**

papers in refereed conference proceedings

**12**

books and chapters

**76**

Cahiers du GERAD and revisions

# ORGANIZED SCIENTIFIC ACTIVITIES BY GERAD

## ACTIVITIES IN 2021–2022

## WORKSHOPS

- 4 Python, 4 LaTeX and one TikZ workshops
- Communicating OR/MS: Writing and Presenting Activities
- “Writing a scientific paper” Q&A session with Gilbert Laporte
- 11th International Workshop on Lot Sizing
- CanQueue 2021
- Showcase yourself and hunt jobs
- Mean Field Games on Networks Workshop

## CONFERENCE

- 2022 Optimization Days

## SCHOOL

- School of Decision Science and Operations Research
